-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 12 November 2004.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

1. Claims 80 and 177 contain the trademark/trade name Pyrex. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a type of glass and, accordingly, the identification/description is indefinite.

2. Claims 52, 90 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no cover plate described in the specification as filed in the 5 nl dispenser embodiment. There is no magnetic sensing for the reference points in the specification as filed. The new matter added by amendment should be cancelled in response to this action.

3. Claims 48-73, 75-104, 1-6-126, 152-198, 200-219 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear how the "solution of compound" relates to the ligands arrayed. See also claim 152. Claim 125 is unclear as to how repeated dispensing to the same localized area relates to the limitation to adjustment for a single coupling step. Claim 50 is unclear in that it is unclear how a pellet (solid) can be in solution as in claim 48. Claim 95 is unclear in that it is unclear how a compound includes a molecule—is the compound the linking molecule, or does it include a linking moiety or portion?

4. Applicant's arguments filed October 19, 2004 have been fully considered but they are not persuasive. Applicant argues that the relationship between the compound and ligands is found in the dependent claims, but that does not make the independent claims any clearer. Applicant argues that the eventual compound at the localized area is a ligand, but that is not in fact claimed. The compound is in solution and in communication with the dispenser, and there is no stated relationship between the compound, the single coupling step or the ligands formed. Applicant did not address the relationship between the multiple dispensing of claim 125 and the single coupling step of the independent claims.

5. Claims 48-73, 75-104, 106-126, 152-198, 200-219 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first and second paragraph, set forth in this Office action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jan M. Ludlow whose telephone number is (571) 272-1260. The examiner can normally be reached on Monday-Thursday, 11:30 am - 8:00 pm.
